

CPE 353 Lab016

Goals

Practice using Qt interface to SQLite

- Create table, insert rows, query, and drop table from within a Qt application.
- Use byte arrays to populate pixmap objects

Directions

Use **Qt Creator** to implement your own version of the Lab016 program.

Type the following while logged into **blackhawk** or a Linux lab machine to execute the sample solution.

/home/work/cpe353/labs/lab016

A video discussing the solution is available via Canvas.

If you have questions, please contact the course instructor.
